DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the essential difference from the prior art is concurrently generating a plurality of images of the subject using a plurality of image capture devices spaced apart, and displaying on a workstation, a combined record containing the plurality of concurrently captured images arranged adjacent to a predetermined biometric parameter that is captured along with the images. These features in combination with the other elements of the claim and the base claim are not disclosed or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation of Prior Art

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

a. Eraslan U.S. Patent No. 6,381,346 discloses a workstation for displaying a record containing a plurality of images of a subject (figure 33) and a stereo imaging system.

b. Yan U.S. Patent No. 6,526,161 discloses a system comprising a plurality of image capture devices for concurrently capturing images of a subject (figures 4-5).

Art Unit: 2623

c. Price-Francis U.S. Patent No. 5,815,252 discloses a workstation for displaying an image of a subject adjacent to a biometric parameter of the subject (figure 3).
